I developed a fully responsive and interactive portfolio website using HTML, CSS, and JavaScript. This project showcases my web development skills and serves as a comprehensive portfolio for my work.

Features

Responsive Design: Utilized CSS Flexbox and Grid to ensure the website is mobile-friendly and looks great on all devices.

Dynamic Content: Implemented JavaScript to create interactive elements such as image sliders, modal pop-ups, and animated scrolling.

Clean and Modern UI: Focused on creating a visually appealing design with a modern aesthetic, using CSS animations and transitions to enhance user experience.

Navigation: Designed a smooth and intuitive navigation system with a sticky header and scroll-spy for easy access to different sections.

Project Showcase: Created a dedicated section to display my projects, each with detailed descriptions and interactive previews.
